

Numeracy

Show children temperatures to help with negative numbers.
Ask what digits are worth in numbers up to 1 000 000
Look for Roman numerals to 1000 (M)
Practise rounding numbers up to 1 000 000 to the nearest 10, 100, 1000, 10 000 and 100 000
Continue to practise times tables and use their related facts such as $8 \times 7 = 56$ so $56 \div 7 = 8$ or $80 \times 7 = 560$.

Topic Show an interest in your child's learning.
This term's topic is 'The Vikings.'
We will be taking an enquiry based approach to history, asking why the Vikings came, where did they settle and how they should be remembered.

Spelling
The children have been shown different ways to practise spellings. Ask them to show you. We will be sending home spelling rules which the children will need to apply or word lists linked to their year group. Use of spelling frame really supports with the learning of their spellings.
